Our services are designed to cover the entire life cycle of Oracle licensing, including compliance, optimization and long term planning.

<p>Compliance Check & Optimization</p> <p>Discover your compliance risks and ways to optimize your Oracle license inventory with a single service from Redwood Compliance. Think of it as a “dry run audit” to reduce compliance risks while optimizing and reducing licensing costs.</p>	<p>Audit Defense Service</p> <p>License audits are on the rise and Oracle’s audit steps are complex. We will put you ahead of the curve and in control of the process. With our rapid self-audit and engagement management expertise, we will minimize your audit resolution cost while making sure you remain compliant.</p>
<p>ULA Service</p> <p>Whether you are considering a new ULA, certifying or renewing one, or are in the middle of a ULA audit by Oracle, our 360° ULA Service has you covered throughout the ULA lifecycle. With our expertise, you will get the best value out of the ULA while maintaining compliance.</p>	<p>Contracts & General Advisory</p> <p>Oracle contracts are complicated. Whether you are going through a merger or have general questions about Oracle licensing or simply want a better understanding of your Oracle agreements, we can help. Asking Oracle’s LMS for “help” could trigger a license audit!</p>
